

Talkin' Churchianity Blues, #1
By Phil Ayliffe

- #1 Well I went in the big church today,
Took a pew, sat down to pray,
When God Himself did then appear
And I caved in, right into fear
He was tall, had a white beard and pale blue eyes. He was scary.
- #2 "OHGOODGOD!" He said "SHUDDUP!
Don't call me good you mongrel pup.
I know everything you've done
And *you* have made me *angry*, son!"
What'd I done? Was it that bad? I knew one thing: He was real mad.
- #3 "Now listen boy, I've come to tell,
So hear my words and mark me well:
This 'God is Good' has got to cease!
It's fear and guilt that'll keep the peace.
People thinking they can be happy. . . People thinking they have free choice . . .
People thinking *they* can choose . . . Why it's heresy!"
- #4 "So here it is once more again,
I tell you, you were born in sin.
But goodly you must try to be,
But you can't, cause you're no good you see.
Adam did it. He betrayed me. And after all-1-1-1-1 I did for him.
And you're all-1-1-1-1 just like him!"
- #5 "Now hold on God, this makes no sense.
What you're sayin' hangs me on the fence.
If I'm no good cause Adam blew it,
Then what is life? there's no point to it.
I mean . . . I am no good . . . But I gotta be good . . . But I can't be good . . .
'Cause I *am* no good. That's crazy!"
- #6 "Yours is not to question why,
Yours is but to do or fry.
I tell you now the *only* way,
To get to heaven: *You! Must! Pay!*
Dig de-e-e-e-p down! Give to my anointed 501(C) 3 non-profit entity,
and I *might* forgive you."
- #7 "Well that's it boy, do as I say.

I'll see *you* on the judgement day."
Then he was gone. I was relieved.
He spoke of Adam, why not Eve?

#8 Well out the door and down the steps
I'd just met God and I was a wreck.
Guilty, scared and really confused.
Talkin' . . . I am no good. . . But I gotta be good. . . But I can't be good cause I am
no good but I gotta be good but I can't be good cause I am no good but I gotta . . .
but I can't . . . But I . . . Oh good lord! I've got the Churchianity Blu-u-u-ues.

Churchianity Blues

are in the end days . . . the end days of a decadent monotheism.

end days of an Abrahamic, three headed cerberus gone mad.
come to mad dog monotheism.

egeneracy that seeks to replace leadership with authority, xxx with xxx, and xxx with xxx.
I all with a god who says "Love me or I will kill you."

say piss on it. We want no part of it.

, at the least, let's have some fun with it, hold it up to the ridicule it deserves before we are forced to
er through a pointless armageddon.
